

00 Newspaper project instructions and plan

Lots of newspapers, especially at the weekend, are full of different sections on a huge variety of topics. Over the next 2 weeks you will produce a mini newspaper with 6 different sections, one on news, education, sports, entertainment, cookery and puzzles.

Each day you will make an article for a different section of the newspaper. There is a guide to help you and often examples to show you how to put together your own article and to give you ideas. You are the journalists for this project - we hope you enjoy your new job!

At the end of the project you may want to put your articles together in one newspaper and put a title. You could call it the Covid Chronicle or the Abingdon Times or the Oxford Oracle. If you hand in your articles, we can build a whole class newspaper with these different sections and share it with each other.

Plan of action for the two week Covid Chronicles newspaper project		
week 1	day 1	News article - turning bullet point notes into a full sentences
	day 2	Education - interview teachers, pupils and parents about remote learning
	day 3	Cookery - share your favourite recipe and explain why you love it
week 2	day 4	Entertainment - review some of the best programs, films and books
	day 5	Puzzles - create your own crossword by writing definitions of words
	day 6	Sports - write a report on some family exercise as if it's a sporting event
